SITE CONTEXT

STATE

WATERSHED

STUDY AREA

TRAVERSE CITY

STATE OF THE BOARDMAN

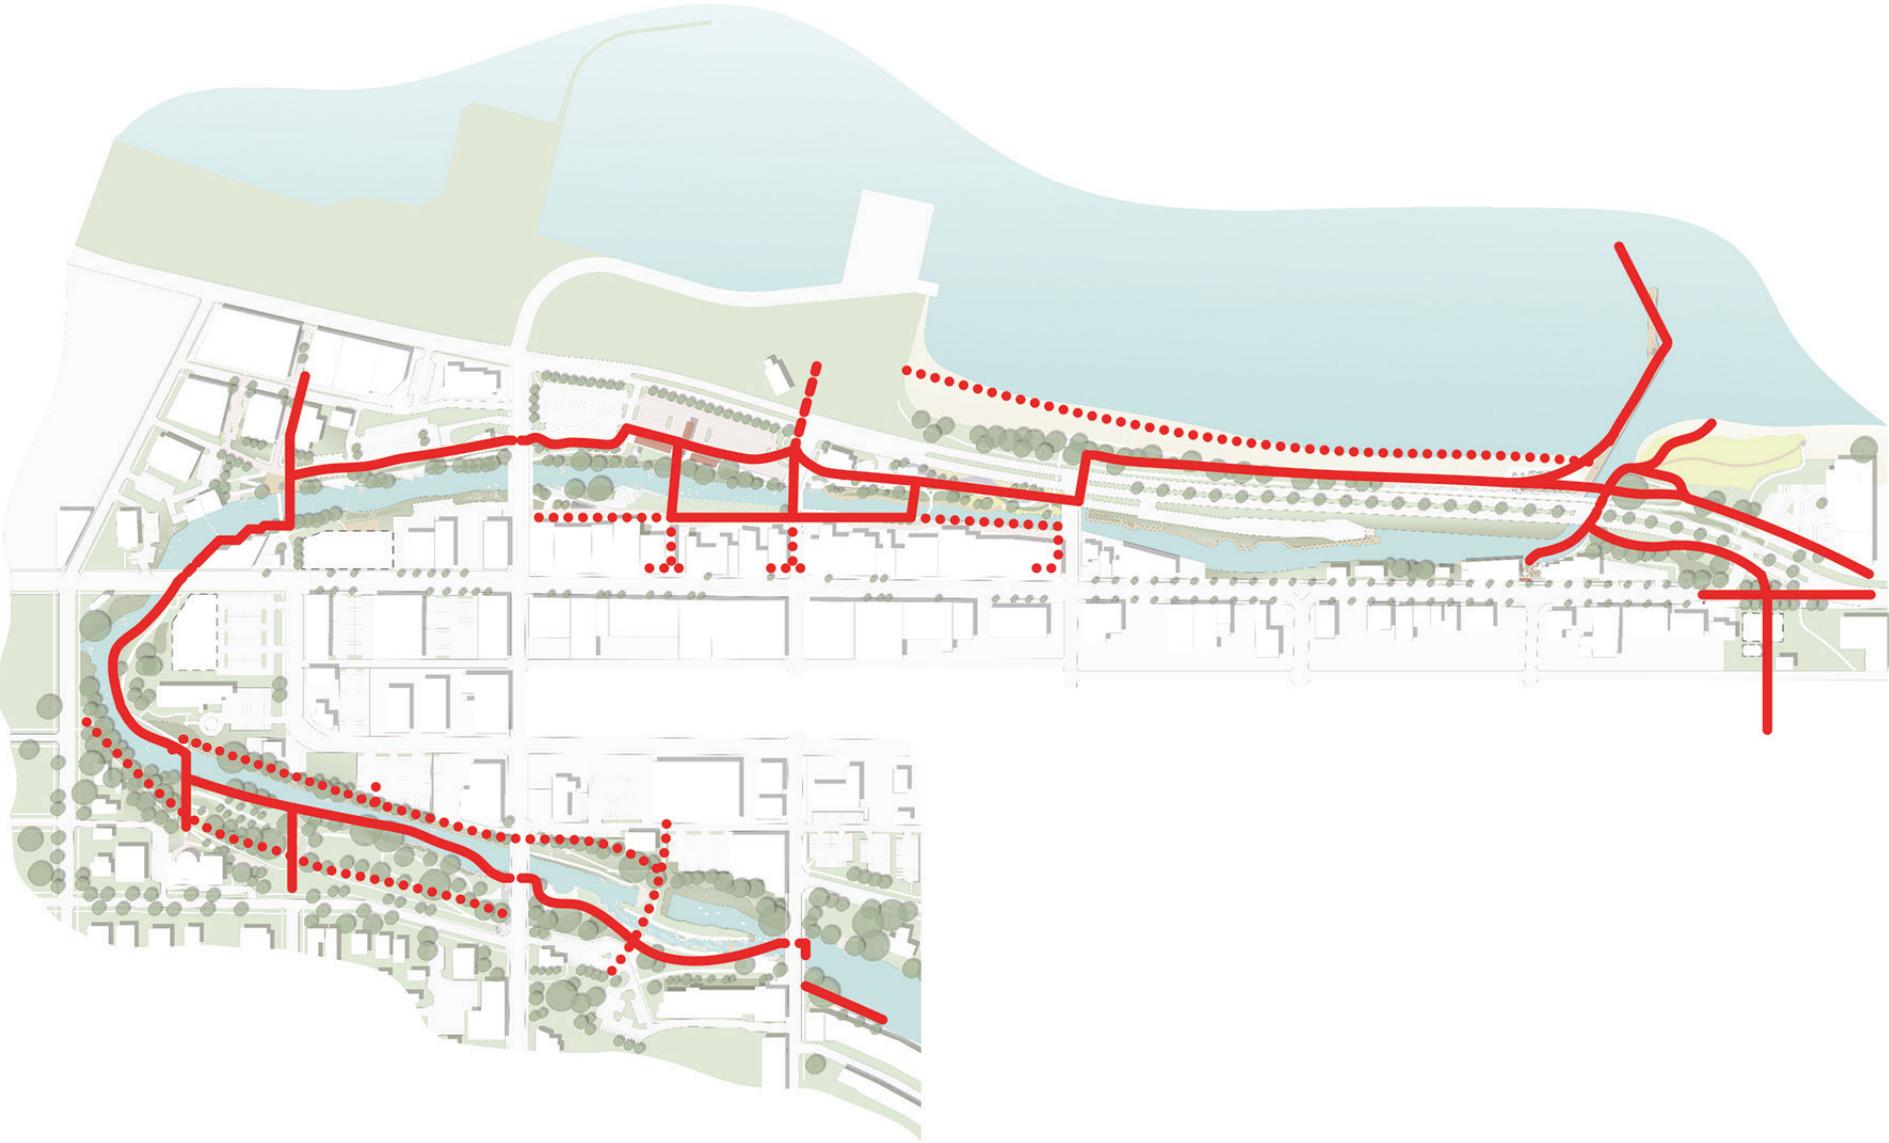

DESIGN GOALS

1. Design a riverwalk that improves **pedestrian circulation** along the Boardman River, knits the river into the **identity** of the community, and becomes a **destination** for Traverse City residents and visitors.
2. Develop a **cohesive plan** for the Lower Boardman River that incorporates the vision and goals of the City of Traverse City.
3. Create and enhance **community gathering spaces** and **recreational opportunities** that respond to the adjacent neighborhood's character.
4. Incorporate **ecological interventions** that improve the health of the river and provide opportunities for environmental education.
