- 0 - 1500
  - 1501 - 2000
  - 2001 - 5000
  - 5001 - 10000
  - 10001 - 20000
  - 20001 - 40000

The data that is collected provides a reasonable representation of the conditions encountered during the timeframe described above. Conditions such as the weather, the day of the week, the time of the year and limitations of the data collection device can affect the results. The data can be affected by bicycle traffic, two vehicles passing over the traffic counter at the same time but in different directions, etc. Please keep these factors in mind while reviewing this information.
