Order Workbench: [FAQs](#) [Site Map](#)

© 2008 General Motors. All Rights Reserved.

Specifications: The City is looking to continue its efforts of reducing our overall Carbon Footprint and using renewable energy. We are in the need of an Electric Plug in Vehicle, or a Plug in Hybrid Vehicle.

This Vehicle will be used by our Parking Services and will need to be capable of caring two people and have ample cargo area to haul up to 52 collection boxes that measure approximately 1.5' Deep x 1'tall x 8" wide , in addition small barricade signs and other supplies. *I CANNOT GUARANTEE THIS VEHICLE WILL HOLD ALL YOUR COLLECTION BOXES WITH SIGNS*

Additionally must be able to last several hours running during the day without multiple recharges, the vehicle will not get a lot of miles during the course of the day however "Length of time" available to run and still provide heat/air to the occupants is a big consideration.

Please mark Comply or fill in specification where requested.

If you have both EV and PHEV please bid both.
