

US31 Water Main Replacement - Geotech Proposals

Location #1

US31 b/t South City Limits & W. 14th St.

		Soils and Structures
Description of Work	Fee	
Mobilization, drilling, sampling, field testing	\$	5,500.00
Stake locations, Miss Dig	\$	550.00
Grout testing borings	\$	2,200.00
Dispose of soil cuttings	\$	960.00
Laboratory testing	\$	625.00
Engineering Review & Report	\$	1,900.00

Project Total \$ 11,735.00
Fee per foot of boring (243 ft. per RFP) \$ 48.29

Notes:

Traffic Control: Not mentioned in proposal.

Proposal requires City to provide trimming and clearing if needed.

Confirmation that SPT will be provided at 2.5' intervals for the full length of the bore = yes

Proposal assumes all planned locations will be accessible.

		Otwell Mawby
Description of Work	Fee	
Geotechnical Investigation	\$	16,000.00

Project Total \$ 16,000.00
Fee per foot of boring (243 ft. per RFP) \$ 65.84

Notes:

Traffic Control: Shoulder closure included in proposal. Lane closure would be extra.

Confirmation that SPT will be provided at 2.5' intervals for the full length of the bore = yes

Soil cuttings to remain onsite.

Proposal mentions that some borings will be moved due to accessibility concerns. Will attempt HAB at original locations.

		Gosling Czubak
Description of Work	Fee	
Mobilize and Drill Twelve Soil Borings for a Total of up to 241 ft	\$	11,850.00
Laboratory testing	\$	500.00
Geotechnical Exploration Report	\$	1,550.00

Project Total \$ 13,900.00
Fee per foot of boring (243 ft. per RFP) \$ 57.20

Notes:

Traffic Control: Assumed MOT plan will not be required. Will provide traffic control devices per email follow up.

Confirmation that SPT will be provided at 2.5' intervals for the full length of the bore = yes

Per email follow up GZ is prepared to move boring locations if needed as described the RFP.
