Skid Units

Turbo Technologies makes Skid type watering units from 50 Gallons to 1600 gallons.

Skid type watering units are designed for many different watering applications. It consists of a tank on a structural steel skid with front fork lift slots. It is powered by a Robin Subaru 4.5 H.P. recoil start engine (Honda engines with recoil or electric start optional). It comes standard with a 2" 150 GPM pump with a maximum of 35 PSI. The unit has a by pass and a manual valve. Units come standard with 75" of 3/4" discharge hose and hose holders on the side of the tank.

- W-50, 50 Gallon System with a 50 gallon PCO tank.....
- W-100, 100 Gallon System with a 100 gallon PCO tank.....
- W-150, 150 Gallon System with a 150 gallon PCO tank.....
- W-300, 300 Gallon System with a 300 gallon low profile oval tank.....
- W-500, 500 Gallon System with a 500 gallon low profile oval tank.....
- W-750, 750 Gallon System with a 750 gallon low profile oval tank.....
- W-925, 925 Gallon System with a 925 gallon leg tank.....
- W-1325, 1325 Gallon System with a 1325 gallon leg tank.....
- W-1625, 1625 Gallon System with a 1625 gallon leg tank.....

OPTIONS

- Honda 5.5 H.P engine in lieu of Robin Subaru engine
- Honda 5.5. H.P. engine and Ace centrifugal pump (110 GPM 120 PSI) in lieu of Robin Subaru
- Add electric start to Honda 5.5 H.P. Engines (includes battery)
- Manual rewind hose reel in lieu of hose holders
- Electric rewind hose reel in lieu of hose holders (requires Honda Electric Start engine package)
