Issued: September 11, 2025

Griffin Street Reconstruction
Work Begins September 15, 2025

Traverse City – Motorists, bicyclists, and pedestrians should be aware that the City of Traverse City’s contractor, Team Elmer’s, will begin reconstructing Griffin Street between Pine and S. Union Streets on September 15, 2025. The work is anticipated to be substantially completed on October 31, 2025, weather permitting.

Work activities include:

- Asphalt, watermain, and sanitary sewer
- Mobility Improvements: Install shared-lane markings (sharrows) and create a multi-use trail connection linking Locust to Union across the city-owned parcel north of Speedway.

During the project, Griffin Street will be closed between Pine and Locust Streets. Sidewalks within the construction area will be closed as necessary to complete the watermain connections at Pine and S. Union Streets. Access to driveways and nearby side streets will be maintained as much as possible; however, some temporary restrictions may be necessary during specific construction activities. Proper barricades and signage will be in place to ensure safety and provide clear directions.

This construction will generate dust, noise and cause inconvenience. We would like to thank you in advance for your patience and cooperation. Please feel free to call Zach Cole at (231) 922-4492 if you have any questions, comments or concerns about the work or the schedule.

The Griffin Street Project is part of the 2025 Reconstruction Project. Learn more, <https://www.traversecitymi.gov/projects/2025-2026-pavement-preservation-and-reconstruction-project.html>
