**2026 Water Service Line Replacement Project Locations  
*Week of May 18, 2026***

Traverse City – Residents and businesses should be aware that Team Elmer’s, in coordination with the City of Traverse City Water/Wastewater Maintenance Division, has begun the 2026 replacement of private galvanized water lines that were once hooked to lead. The water service replacements began in May 2026. The project is anticipated to be completed and will be completed in fall of 2026.

The week of May 18, 2026, work will be conducted on 500 block of Fifth, the 200 block of E. Eighth, the 200 block of E. Tenth, the 100 block of E. Fifteenth, the 1300 block of S. Union, and the 1300 block of Cass. This work will cause lane closures and lane shifts. Additionally, the work will cause sidewalk closures.

The work will generate dust and noise, and may cause disruptions to pedestrian, bicycle, and vehicular traffic with intermittent closures of sidewalks and streets. Appropriate signage will be in place, and access to all homes and businesses will be maintained at all times. If possible, please use alternate routes avoiding this area to reduce congestion, delay, and promote worker safety.

We would like to thank you in advance for your patience and cooperation. Please contact the Water/Wastewater Maintenance Division at (231) 922-4923 x 2 if you have any questions or concerns regarding the work.
