Issued: May 8, 2025

2025 Water Service Line Replacement Project
May 8, 9, and Week of May 12, 2025 Locations

Traverse City – Residents and businesses should be aware that Team Elmer's, in coordination with the City of Traverse City Water/Wastewater Maintenance Division, will begin the 2025 replacement of private galvanized water lines that were once hooked to lead. The water service replacement line project kicked off in May 2025 and will be completed in fall of 2025.

Beginning May 8th and through the week of May 12th, the project will be conducted on the 800, 1000, 1100, and 1200 blocks of W. Front Street, and the 400 block of Cedar Street. This work will generate dust and noise, and may cause disruptions to pedestrian, bicycle, and vehicular traffic with intermittent closures of sidewalks and streets. Appropriate signage will be in place, and access to all homes and businesses will be maintained at all times. If possible, please use alternate routes avoiding this area to reduce congestion, delay, and promote worker safety.

We would like to thank you in advance for your patience and cooperation. Please contact the Water/Wastewater Maintenance Division at (231) 922-4923 x 2 if you have any questions or concerns regarding the work.
