Issued: September 4, 2025

Ninth Street Reconstruction
Work Begins September 8, 2025

Traverse City – Motorists, bicyclists, and pedestrians should be aware that the City of Traverse City’s contractor, Team Elmer’s, will begin reconstructing Ninth Street between Union and Cass Streets, including the Cass Street intersection, beginning September 8, 2025. The work is anticipated to be substantially completed on October 31, 2025, weather permitting.

Work activities include:

- Full reconstruction including new curbs, asphalt, watermain, sanitary sewer, storm sewer, bioswales, galvanized service replacements
- No parking on the east side of Ninth Street between Union and Lake Avenue on the north side on even days and the south side on odd days

During the project, Ninth Street will be closed between Cass Street and Union Street. Cass Street at Ninth Street will also be closed for watermain and storm sewer work and will reopen after paving is completed. Union Street will remain open throughout the project. All Cass Street traffic will be detoured to Union Street. Sidewalks within the construction area will also be closed. Access to driveways and nearby side streets will be maintained as much as possible; however, some temporary restrictions may be necessary during specific construction activities. Proper barricades and signage will be in place to ensure safety and provide clear directions.

This construction will generate dust, noise and cause inconvenience. We would like to thank you in advance for your patience and cooperation. Please feel free to call Zach Cole at (231) 922-4492 if you have any questions, comments or concerns about the work or the schedule.

The Ninth Street Project is part of the 2025 Reconstruction Project. Learn more, <https://www.traversecitymi.gov/projects/2025-2026-pavement-preservation-and-reconstruction-project.html>
