This evaluation will be conducted in the manner appropriate, as may be deemed by the City, for the selection of a firm for the purpose of entering into a contract to perform these services. The City intends to evaluate the qualifications and experience of the proposed primary engineer as a significant factor in the consultant selection process. Therefore, the individual identified in the proposal is expected to perform the majority of the services under the resulting agreement. The Consultant shall not replace the primary engineer without the prior written approval of the City.

If a replacement becomes necessary due to unforeseen circumstances, the Consultant shall propose a substitute engineer with qualifications and experience that are equal to or greater than those of the originally proposed individual. The City reserves the right to approve or reject any proposed replacement.

Following the evaluation of written proposals, the City may, at its sole discretion, invite one or more of the highest-ranked firms to participate in an interview. The purpose of the interview is to evaluate the qualifications, experience, communication skills, and overall suitability of the proposed primary engineer, as well as the firm's understanding of the requested services.

25. Delay. If the Consultant is delayed in the completion of the work due to force majeure or otherwise, the time for completion may be extended for a period determined by the City in its sole discretion to be equivalent to the time of such delay. The City may terminate this Agreement if the delay lasts for more than 30 days. Upon termination by the City, the Consultant shall be entitled to the costs actually incurred in compliance with this Agreement less any costs incurred by the City as a result of the delay until the date of such termination, but not more than the maximum Agreement amount.
