Issued: August 21, 2026

2026 Paving and Resurfacing Monroe Street (Front Street to Bay Street)
Phase 3 — Monroe Street from Randolph Street to W Front Street

Traverse City, Mich. — Motorists, bicyclists, and pedestrians should be aware that contractors will be closing Monroe Street from Randolph Street to W Front Street for street reconstruction beginning Monday, August 24, 2026.

This portion of the Monroe Street Reconstruction is expected to be open to traffic on or around Friday, October 30, 2026. Reconstruction activities of Monroe Street will continue throughout the construction season with an anticipated completion date of October 30, 2026. This work will include sanitary sewer, water main, storm sewer, curb and gutter, asphalt pavement, sidewalks, and all related improvements.

The intersections of Monroe Street and Randolph Street and Monroe Street and W Front Street will have intermittent construction during this timeline. Drivers should expect temporary lane shifts, lane closures, and street segment closures while work is being performed.

Access to all residences will be maintained, and appropriate signage will be in place.

Work is weather-dependent and modifications may be necessary. If possible, please use alternate routes avoiding this area to reduce congestion, delay, and promote worker safety.

We would like to thank you in advance for your patience and cooperation. Please feel free to contact Zach Cole at (231) 922-4492 if you have any questions, comments or concerns about the work or the schedule.
