Issued: August 7, 2026

2026 Water Service Line Replacement Project Locations
Week of August 10, 2026

Traverse City, Mich. – Residents and businesses should be aware that Team Elmer's, in coordination with the City of Traverse City Water/Wastewater Maintenance Division, continues the 2026 replacement of private galvanized water lines that were once hooked to lead. The water service replacements began in May 2026. The project is anticipated to be completed and will be completed in fall of 2026.

The week of August 10, 2026, work will be conducted on the 100, 200, and 300 blocks of Birchwood, the 2000 block of Shawnee, the 300 and 400 blocks of Wenonah, the 400 block of S. East Bay Blvd., the 1700 and 2000 blocks of E. Eighth Street, the 1200 block of Titus, and the 400 block of S. Civic Center.

The work will generate dust and noise, and may cause disruptions to pedestrian, bicycle, and vehicular traffic with intermittent closures of sidewalks, streets, and lane shifts. Appropriate signage will be in place, and access to all homes and businesses will be maintained at all times. If possible, please use alternate routes avoiding this area to reduce congestion, delay, and promote worker safety.

We would like to thank you in advance for your patience and cooperation. Please contact the Water/Wastewater Maintenance Division at (231) 922-4923 x 2 if you have any questions or concerns regarding the work.
