

**PUBLIC SERVICE ANNOUNCEMENT
FOR IMMEDIATE RELEASE**

Contact: Justin Roy, Water/Wastewater Superintendent
(231) 922-4923 x 2
jroy@traversecitymi.gov

Issued: June 4, 2025

SSES Manhole Inspections
June 6th – 20th

Traverse City – Motorists, bicyclists, and pedestrians should be aware that OHM Advisors, in coordination with the City of Traverse City Water/Wastewater Maintenance Division, will begin conducting sewer manhole evaluations throughout the City for the Sanitary Sewer Evaluation Study (SSES) June 6, 2025. The field work is anticipated to be completed by June 20, 2025.

The field work will result in intermittent lane closures and sidewalk closures. Access will be maintained to all businesses, parking lots, and residences at all times and appropriate signage will be in place.

Work is weather dependent, and modifications may be necessary. If possible, please use alternate routes avoiding this area to reduce congestion, delay, and promote worker safety.

We would like to thank you in advance for your patience and cooperation. Please contact the Water/Wastewater Maintenance Division at (231) 922-4923 x 2 if you have any questions or concerns regarding the work.
